Andrew Wiles – proved Fermat's Last Theorem after 350 years

Named in honour of Sir Andrew Wiles, British mathematician who proved Fermat's Last Theorem after more than three and a half centuries by linking elliptic curves and modular forms – resolving the most famous open problem in the history of mathematics.

Given at Brno, 20 July 2026

A handwritten signature in black ink, appearing to read 'Viktor Lošťák'.

Viktor Lošťák

Breeder / Felis Noetica
